

# Pickleball Paddle Design and Construction Template

Here is the pickleball paddle template and also the written template to help you make a pickleball paddle for yourself..

## 1. Design Planning

- Shape and Size:
  - Length: 15 inches (A good balance between reach and control)
  - Width: 8 inches (Standard width for a blend of power and control)

- Shape: Rectangle (Traditional shape for balanced performance)
- Material Selection:
  - Core Material: Polymer (For a good balance of power and noise reduction)
  - Surface Material: Carbon Fiber (For durability and enhanced ball control)
  - Grip Material: Cushion Grip (For comfort and sweat absorption)

## 2. Construction Details

- Core Thickness:
  - 0.6 inches (Optimal thickness for control and power)
- Grip Size:
  - Circumference: 4.25 inches (Comfortable for most hand sizes)
  - Length: 5 inches (Standard length for good hand placement)
- Weight:
  - 7.8 ounces (Mid-weight for a balance of power and control)

## 3. Performance Features

- Balance Point:
  - 9 inches from the bottom of the paddle (For a head-light balance that enhances maneuverability)
- Surface Texture:
  - Textured (To improve grip on the ball for better spin)
- Edge Guard:
  - Yes (To protect the paddle edges and add durability)

## 4. Customization Options

- Color Scheme:
  - Primary: Blue
  - Secondary: Black
  - Accent: White
- Decorative Elements:
  - Custom Decal with Player's Initials (For personalization)
  - Geometric Patterns (Painted on the back for style)
- Finish:
  - Matte (For a non-reflective surface that enhances grip on the ball)

## 5. Testing and Adjustments

- Initial Play Test Feedback:

- Balance: Feels slightly head-heavy
- Grip Comfort: Excellent
- Control: Very Good
- Power: Good
- Spin: Excellent
- Required Adjustments:
  - Weight Adjustment: Add weight to the handle to correct balance
  - Grip Modification: None required
  - Surface Texture Change: None required
  - Balance Correction: Adjust by adding lead tape inside the handle

## **6. Safety and Compliance Check**

- Sharp Edges: None (All edges smoothed)
- Regulation Compliance: Meets all USA Pickleball Association standards
  - Dimensions: Within regulation size
  - Surface Roughness: Compliant with USAPA standards
  - Material Restrictions: All materials used are approved
